Using these resources...	We will engage in these activities...	And produce these results...	Which yield these short-term outcomes...	And these mid-term outcomes...	With these ultimate long-term outcomes!
What resources will be used to support the project?	What are the main things the project will do/provide?	How many and what sort of observable/tangible results will be achieved?	What will occur as a direct result of the activities & outputs? (typically, changes in knowledge, skills, attitudes)	What results should follow from the initial outcomes? (typically changes in behavior, policies, practice)	What results should follow from the initial outcomes? (typically, changes in broader conditions)
